

ILLEGIB

April 22, 1955

Dear Herb:

Would you please see if you could secure for us the last year's issues of a set of bulletins prepared by the Central Radio Propagation Laboratory, known as CRPL - F Ionospheric Data Bulletins. These bulletins were published by the Boulder, Colorado Branch of the laboratory and contain a great deal of detailed data on the ionosphere that will be useful in our work. Normally, these bulletins are made available only to organizations who participate in the exchange of information with CRPL. We are not in position to do this at the present time, and it is for this reason that we seek your assistance in securing this material.

Sincerely,

25X1A

Burt
